

Construction Management ■ General Contracting ■ Design/Build

March 21, 2014

To Whom It May Concern,

It has been a pleasure working with JMC Electrical Contractor, LLC and we greatly appreciate the value of workmanship and dedication that they demonstrate on each project with LS Brinker. I highly recommend JMC Electrical Contractor and would welcome the opportunity in working with them on future construction projects.

They have provided exceptional customer service as well as professionalism when completing our projects on or ahead of schedule. We are currently working with them in completing Phase V of the Detroit Receiving Detroit Medical Center Patient Care Units and they continue to be an important member of our construction team in providing their electrical services. They have met and even superseded the minority requirements on the project, all while continuing to meet our construction goals.

Their in-house and field personnel, as well as supervisors are highly efficient in working with the other tradesman as well as providing a safe and remarkably smooth construction environment. Again, we at LS Brinker look forward to working with JMC Electrical Contractor, LLC in the future as an electrical contractor.

Sincerely,

LS. BRINKER

Donald R Burnau, Jr.
